CHICKS FIND NEW HOME

In some much needed good news the NY(A) Times has just learned of some chicks that have found a new home, right here in Yarmouth.

A young chicken-handler by the name of Quinn has taken in these adorable chicks, built and provided shelter for them and has now embarked on a system of around the clock care. Quinn seems very comfortable with the chicks and enjoys some one-on-one time with each of his charges. Quinn did want our readers to know that they are adorable but they do leave a lot, and I mean a lot, of mess behind!

It should be noted that while this new mower is hard to control it requires no fuel.

Breaking news out of Lisbon! Our intrepid reporters have discovered a family who have found a unique way to keep their grass short this spring. Totally by chance John and his family stumbled upon this unusual lawnmower!

LISBON FAMILY "FIND" NEW LAWNMOWER

While out walking with his family John noticed a deer grazing happily on his front lawn. John and his family stayed quiet and snapped this great shot of their brand new lawnmower. Neither John nor his brothers have had to mow the lawn for days. Now that's good news!

Unfortunately at the time of printing there were no photos to support this story.

KING SALAMANDER VACATIONING IN POWNAL

Local Naturalist and Environmentalist, June, made a fantastic discovery this week while collecting data on the native salamander population. Under a rock June discovered a King Salamander. It was a truly majestic discovery! Not only was this a huge salamander but it was regally adorned with large yellow spots. June, never afraid to interact with nature, quickly snatched the photo with the help of her dad. It should be noted that the King salamander was handled with the utmost respect and care.

TOP FREEPORT GYMNAST STARTS TRAINING AT HOME

Lucy, a top gymnast from Freeport, has not let the closure of her gym stop her training. She has creatively used her bed, and rumor has it her brother too, in the place of mats. Now just this week Lucy took delivery of a balance beam. Yes, the balance beam came through the mail. Lucy must have one big mailbox!
