Inclement Weather and Mechanical Trouble Communication Procedure

On occasion, inclement weather (snow, ice, heavy rains, etc.) or mechanical trouble may affect the pick-up and drop-off times of NYA's transportation routes. In the event of a delay in the pick-up or drop-off times that will be greater than 10 minutes, you will receive a group text from your driver communicating the estimated delay time.

For school closing or delay information due to inclement weather, please check with media outlets such as local TV station news websites or the NYA website for information. Additionally, you should receive an email from NYA describing the closing or delayed opening information. In the event of a school closing, NYA will not send out a text regarding transportation from the aforementioned phone number; but, in the event of a delayed opening, we will send out a group text to inform you of adjusted pick-up times.

Pick-up and Drop-off locations and times are subject to change based on the students enrolled in the Transportation Program and road construction. Parents will be notified in advance of any changes.

Due to the importance of maintaining the Transportation schedule and the convenience of all students, parents and drivers, students must be at the Pick-up and Departure locations on time. Drivers cannot wait for students who are late. ***Students who miss the bus will need to make their own arrangements to get to and from school.***
